

Best Practice: 2

Title: RIT- Campus management system (RIT-CMS)

Objectives:

RIT aims to implement its mission through extensive use of ICT for academic and administrative activities. The objectives are:

- Enhance governance quality via participation, transparency, and accountability.
- Achieve operational efficiency in admissions, teaching-learning, administration, examinations, accounts, and HR.
- Provide stakeholders access to essential information anytime, anywhere.
- Minimize paper usage to achieve a paperless administration.

The Context:

ICT is essential in modern education, enabling fast and accurate decision-making through access to real-time information. Information in Higher Education Institutions (HEIs) covers many areas: admissions, academics, evaluation, administration, HR management, student reports, research, infrastructure, and maintenance. Transparency and accountability are crucial as stakeholders are continuously engaged. The information must be authorized and reliable, with user-friendly systems to minimize complexity. To address these needs, RIT uses RIT- CMS a cloud based Campus management system.

The Practice:

RIT-CMS is effectively implemented across all institutional activities, providing role-based access to stakeholders. Key areas include:

- **Admission and Fee:**

RIT-CMS streamlines the admission process by providing information on available seats, fee structure, and cut-off rankings. Prospective students can register online, and the system handles document collection, hostel allocation, transportation service opt-in, ID generation, and fee receipts.

- **Academic Activities:**

Faculty update lesson plans, attendance, and class topics on RIT-CMS. The system tracks student attendance and provides reports for monitoring. Study materials, assignments, internal assessment marks, and semester results are uploaded for stakeholder access. Information about co-curricular and extracurricular events is also available.

- **Outcome based education:**

RIT-CMS provides strength to implement outcome based education, where faculty can concentrate more on implementation of student centric learning approach to achieve specific outcome.

- **Student Support:**

RIT-CMS provides students with departmental and college-level activity information through notices and circulars. Students can submit grievances, which are addressed by faculty and higher authorities. The system maintains a database for communication with students and parents. Placement and training information is regularly updated, and students can give feedback and participate in surveys.

- **Human Resource Management:**

Faculty profiles, performance, research, and training activities are documented in RIT-CMS. Leave and salary details are managed within the system, with leave applications requiring alternate class arrangements and approvals. Pay slips can be accessed through RIT-CMS.

- **Administration:**

RIT-CMS enhances administrative efficiency by providing timely information flow and reducing delays due to miscommunication. It manages faculty attendance, salary processing, grievance redressal, and generates detailed reports for decision-making. Inventory control and maintenance details are also managed.

Evidence of Success:

The effective use of RIT-CMS is reflected in the seamless functioning of all departments, facilitated by efficient communication and timely information availability. Instant access to updated information prevents delays, enhancing decision-making. The system's transparency, clarity, and ease of access are highly valued, saving time on data collection. Parents appreciate the login facility, which allows them to monitor their children's progress effectively.

Problems Encountered and Resources Required:

Initial challenges included listing all institutional activities and defining stakeholder roles clearly. Aligning the system with university and AICTE policies was complex. The dynamic nature of curriculum and evaluation processes required adaptability. After initial familiarization, the system's efficiency improved. RIT-CMS is accessible via web and mobile devices, requiring a good network connection. Server maintenance and software issues are managed by the service provider.

RAJEEV INSTITUTE OF TECHNOLOGY

Screen shots of user interfaces of each module reflecting the name of the HEI

The screenshot displays the login interface for the ERP system. At the top left is the Rajeev Institute of Technology logo. Below it, the text 'Rajeev Institute of Technology, Hassan' is visible. The login form includes a username field with the text 'FCRITH221', a password field with masked characters '.....', a 'Forgot Password ?' link, a blue 'Login' button, and an 'OR' separator. Below the separator is a 'Log In with Google' button with the Google logo. At the bottom left, there are links for 'Privacy Policy', 'Terms of Use', and 'Powered by vmedulife'. The background of the interface is an aerial photograph of the institute's main building, which has a red and white facade and a large sign that reads 'RAJEEV INSTITUTE OF TECHNOLOGY HASSAN'.

RAJEEV INSTITUTE OF TECHNOLOGY

Plot # 1 (D), Growth Centre, Bangalore-Mangalore Bypass Road, HASSAN- 573 201, KARNATAKA
(Affiliated to VTU, Belagavi., Approved by AICTE, New Delhi., Recognized by Govt. of Karnataka)

The screenshot shows the home page of the RIT Campus Management System (CMS). The interface is organized into several sections:

- Header:** "RIT - Campus Management System (CMS)" with a user profile and "Sign Out" button.
- Navigation:** "Rajeev Institute of Technology, Hassan" and a brief mission statement.
- OBE (Outcome Based Education):** A grid of icons for Outcome, Academic Planning, Online Feedback, Online Exam, Result Analysis, Rubrics, Assignment (Internal Test), IQAC Reports, and Management Dashboard.
- Teaching & Learning:** A grid of icons for Student Details, Events, Learning Management System, Online Grievance, Leaderboard, Notice Board, Mentoring, Training and Placement, My Profile, Committee and Meeting, and Course File.
- ERP (Enterprise Resource Planning):** A grid of icons for Library (ILMS), Leave Management, Inventory, Fees, Admission, Certificate, Inward-Outward, SMS Panel, Website Integration, ID Card, Helpdesk, Employee Registration, Hostel Management, Transport, and Payroll.
- Recent Updates:** A list of updates including Helpdesk Assistance, Telephonic Assistance, Email Assistance, Online Demonstration, and Onsite Assistance.
- Leaderboard:** A section titled "Manjunath H S" with a score of 3020 and a list of attendance records for sessions.
- Footer:** "Product Documentation", "Contact Us", "Download App", "Privacy Policy", "Terms of Use", and "Powered by vmedulife".

Home Page Interface

1. Administration

The screenshot shows the Management Dashboard (Principal Interface) of the RIT Campus Management System (CMS). The interface is organized into several sections:

- Header:** "RIT - Campus Management System (CMS)" with a user profile and "Sign Out" button.
- Navigation:** "Employee Summary", "Student Summary", "Institute Day-wise Summary", "Module Analysis", and "Institute Summary".
- User Profile:** "Mahesh P K", Employee ID: FCRITH-222, UG (Electronics and Communication Engineering), Principal. Contact: principal@rithassan.ac.in, 8884968896.
- Academic Planning:** A table with columns: Department, Subject, Type, No. of Students, No. of Proposed Lectures, No. of Completed Lectures, Syllabus Completion, and Average Student Attendance. The table is currently empty with the message "No academic planning details found."
- Outcome:** A table with columns: Department, Subject, Type, No. of CO, No. of LO, and CO & PO Mapping. The table is currently empty with the message "No outcome details found."
- Attendance & Leaves:** A section with a circular progress indicator.
- Committee & Meetings:** A section with a circular progress indicator.
- Footer:** "Product Documentation", "Contact Us", "Download App", "Privacy Policy", "Terms of Use", and "Powered by vmedulife".
